DETAILED ACTION

This is a reply to the Applicant's amendment submitted on 12/23/2004. According to this amendment, claim 13 is newly added; and thus, claims 1-13 are currently presented in the instant application.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan Bowser, Applicants' representative, on 02/04/2005.

The Examiner's Amendment includes:

CLAIMS:

Claim 1, line 7, insert --directly-- in front of "receiving.

Allowable Subject Matter

1. Claims 1-13 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art fails to disclose or fairly suggest:

a) A synchronization circuit including a delay selection for directly receiving an input signal and a control signal outputted from a state detection circuit, adding a delay to the input signal on the basis of the control signal, and outputting an output signal, as called for in claim 1;

Art Unit: 2816

b) A synchronization circuit including a latch circuit for synchronizing an input signal with a clock outputted from a delay selection circuit, and outputting a synchronized signal, in combination with the remaining claimed limitations, as called for in claim 2;

c) A synchronization circuit including a state detection circuit for outputting control signals relating to respective input signals, according to the temporal relationship between transition points of the plural input signals, in combination with the remaining claimed limitations, as called for in claim 3; and

d) A synchronization circuit including a clock selection circuit for receiving clocks included in respective signal bundles, and selecting one of the inputted clocks, as a synchronization clock, on the basis of the result of a state detection performed between the respective signal bundles by a state detection circuit, in combination with the remaining claimed limitations, as called for in claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
